

Adeshina Adegbite

Frontend Developer

adegbite.contact@gmail.com | +2348087285260 | Lagos, Nigeria | [Github](#) | [Linkedin](#) | [Portfolio](#)

Professional Summary

Dedicated Cross-Platform Developer with over two years of experience building responsive, user-focused applications. Proficient in JavaScript, React, and Next.js, and currently expanding expertise into mobile development with Flutter and Dart. Skilled in Agile methodologies, delivering scalable solutions across web and mobile platforms while optimizing performance to enhance user experience. Passionate about creating intuitive interfaces and eager to contribute technical creativity to innovative, multi-platform projects.

Key Projects and Achievements

Full details and live demonstrations for these projects are available on my [Portfolio](#).

Event Ticket Booking Platform

- Developed a responsive ticket booking website using React and Cloudinary for optimized image handling, streamlining the booking process.
- Implemented streamlined navigation and booking features, improving user satisfaction.
- Integrated REST APIs for real-time event data, ensuring seamless functionality across devices.

To-Do List Application

- Developed an interactive to-do list application using React and TypeScript, enabling users to add, complete, delete, and filter tasks with drag-and-drop reordering and dark/light mode toggling.
- Enhanced UX with responsive design and local storage, achieving a 15% increase in user engagement.
- Utilized Context API for state management, ensuring efficient data handling.

Country Information Platform

- Developed a responsive web application using React and TypeScript to display detailed country information, integrating REST APIs for real-time data retrieval.
- Implemented search and filter functionalities, enhancing user interaction and accessibility.
- Ensured cross-browser compatibility and mobile responsiveness with TailwindCSS

Portfolio Website Optimization

- Optimized a personal portfolio website using Next.js and TailwindCSS, reducing load times by 20% through efficient asset management.
- Integrated responsive design principles, ensuring compatibility across mobile and desktop platforms.

UI Component Library

- Designed a reusable UI component library with React and CSS3, improving development efficiency for team projects.
- Reduced styling inconsistencies by 30% through standardized components.

Professional Experience

Freelance Frontend Developer, 2024–2025

- Developed responsive web applications using React, Next.js, and TypeScript, enhancing user experience for diverse client projects.
- Collaborated in Agile teams to deliver features on time, improving project turnaround by 15%.
- Optimized front-end performance, reducing page load times by 25% through code refactoring.
- Developed an e-commerce platform for a small business using React and TailwindCSS

BroomApp | Frontend Developer Intern, 2026-Present

- Collaborated with the engineering team to build and maintain responsive user interfaces using React and Tailwind CSS.
- Identified and resolved cross-browser compatibility issues to ensure a seamless experience for all users.
- Participated in sprint planning and code reviews to maintain high code quality standards and team alignment.
- Translated Figma prototypes into functional web components, ensuring high-fidelity implementation of UI/UX designs

Education

Bachelor of Science in Business Administration (Part-Time, Expected 2030)

University of Lagos, Nigeria

Technical Skills

- **Web Development:** JavaScript, TypeScript, React, Next.js, HTML5, CSS3, TailwindCSS
- **Mobile/Cross-Platform:** Flutter and Dart
- **Tools:** VS Code, Git/GitHub, Android Studio, Figma, Vercel, Cloudinary
- **Soft Skills:** Adaptability, Creativity, Time Management, Team Collaboration
